

## **ASMODEE AND CATAN STUDIO ARE PROUD TO ANNOUNCE CATAN - 3D EDITION!**

*Immerse yourself in the world of CATAN as you trade,  
build and settle on a premium 3D board!*

*Launch expected in August*

Today, CATAN Studio and Asmodee announced the forthcoming release of [CATAN - 3D Edition](#), a premium game that showcases the iconic CATAN game in all its three-dimensional glory. The MSRP for CATAN - 3D Edition is CAN \$419.99.

The island of Catan rises up from the table for an immersive game experience like no other. Settlements grow up from fertile grain fields and cities nestle into the sides of majestic mountains. You can almost hear the sheep baa-ing in their pastures.

This long-awaited 3D edition of the contemporary classic board game CATAN is based on terrain tiles that were hand sculpted by the game designer Klaus Teuber himself. All of the terrain is hand painted for stunning color, and intricately designed player pieces are antiqued for a look that is full of history and character.

"CATAN - 3D Edition is the product of years of diligent effort and attention to detail," said Pete Fenlon, CEO of CATAN Studio. "Our goal was to create a durable premium product that not only looks beautiful on a game table, but that also creates a visually stunning foundation for immersive storytelling."

"We're happy to offer this premium 3D edition of CATAN to Canadian fans across the country," said Asmodee Canada CEO, Jayson Pickford. "This 3D version completely elevates the CATAN experience, making it a definite must-have for players and collectors, alike."

This is not the first time a 3D version of CATAN has been released. A [special Collector's 3D Edition](#) of what was then called *The Settlers of Catan* was launched in 2005. Ever since, the growing popularity and reach of the game has increased fan demand for a new 3D edition.

"The gaming hobby has grown by leaps and bounds since the last time we released a 3D edition more than 15 years ago," Fenlon said. "There is a whole new generation of players who have been eagerly awaiting this game. Using refined designs and improved technology, we're thrilled to finally be able to share it with them."
